

Tuesday, March 21, 2017 1:00 – 2:00 PM

1. Islandora & Pika Updates (Pascal & Mark)

- Detailed “accordion” – metadata display on archive objects
  - o Pika Config options available under “Archive More Details”
  - o Option to open/collapse by default in display
- Display Mode: Related Obj/Entity display options in Pika config
  - o Create URL for image link
- Configuring search facets: Options for which search facets are displayed, whether they are open/closed, order of these options
  - o All available in Pika Config >> Local Content Archive >> Archive Search Facets
- Archive Copy Request Display: Choose which fields patron sees and which fields they must fill in (name, address, phone, etc.); choose urgency of each (hidden, optional, required)
  - o Can turn off “request” form: check box under “Archive Copy Requests” in Pika config
- Ability for users to sort options: title, newest first, date added, date modified, etc.
- Customize “Browse” buttons on exhibit pages
  - o MODS form collection level
  - o >> Pika Options: Collection Display in Pika set to “Custom collection”
  - o >> image 100x100 pixels, add, change image that displays with that button
- Search by ‘described’ entity, browse by subject, etc.
- Fixed display order in scrollers
  - o Manage>>Datastreams>>MODS>>”options for collection homepages” >> scroller|library:Collection#
  - o In collection you added to scroller, create PID list for correct order in “Order of Objects in MODS.
- Display of Wikipedia information on pages
- Ensuring that every metadata field is displayed by default.
- Bug fixes:
  - o Transcripts: fixing patron display
  - o Expanded searches: based on filename to use additional fields when migrated filename is added manually
  - o Updated display of archive objects in scroller on library catalog

**DPLA:** Application accepted, another meeting coming up that will determine governance. Moving forward into implementation and planning phase; metadata has to work within DPLA system.

Round Robin Updates:

**Adams State:** no news, spring break! Training volunteer for metadata

**Bud Werner:** Soft launch of Three Wire Winter, will begin marketing push. Three Wire Winter teachers will be there with students that helped put it together.

**CCU:** spring break next week, hopefully working on data input to move forward projects

**CMC:** ready to start on 50<sup>th</sup> anniversary project, Jordan is on her way there to work with them.

**Englewood:** looking to move existing photo collection to archive, sometime this year. Onboarding staff and training

**EVLD:** update Red Book collection, adding yearbooks, working with Sara Marmot Intern

**Gunnison:** first DVD of first interview for video oral history project arrived; moving forward with Cattlemens Days and trying to get through backlog of items.

**Salida:** Finished 2 photo collections, began another collection including photos, maps, and histories

**Vail:** no news, hopeful for new hires to help with more projects

**Western State:** working through metadata; hopefully will do soft launch the end of next week

**Sara:** finished small photo collection with Mesa County; working with EVLD on photos and manuscript; matching digital offerings to physical items.
