

Discovery Committee Meeting Minutes
September 2, 2014

Jon introduced the charge of the committee at marmot.org/node/5#discovery

Jon recommended the committee members take a look at Readers First

Jon asked for volunteers to take minutes. We did not make a plan for the future, but Jimmy advised that we at least need minutes for anything we as a committee decide to recommend to the Marmot board of directors.

Mark gave a quick VuFind 2014 update
marmot.org/node/2
this page shows libraries who are currently using V2014

Mark announced the hire of Pascal, the new Marmot VuFind junior developer. With Pascal being on board, they are going to start working PivotalTracker to start tracking development again.

<https://www.pivotaltracker.com/s/projects/1146702>

Should we add to pivotal tracker?

No, just continue emailing Mark and he will add it to the tracker

There are 3 sessions at MUG that are directly related to VuFind 2014. If you have to miss MUG, don't worry, there will be training as you implement V2014

Anythink are official associate members (discovery members) of VuFind, CLiC will be soon.

High Priority Backlog items:
order records aren't displaying correctly

Mark showed how the shelf location and call number are showing on the same line now, and here is a link to view additional copy information.

There will be a Discovery Committee email list soon
